## EXPERIENCE

---

### Contract UI/UX Designer

Creative AdTech | October 2018 - Present

Created user experience for data management SaaS platform. Created style guide and implemented in UI. Took conceptual ideas and brought them to life through user flows, wire frames, and interactive prototypes. Handed off pixel perfect designs to off-site developers.

### UX/UI & Graphic Designer

S13 Design | June 2013 - Present

Contracted with clients from a wide variety of markets. Conceptualized and developed designs for marketing material. Designed and developed websites while maintaining brand consistency. Worked with clients directly to create brands and brand-guidelines.

### Graphic Designer & Front-end Developer

Champcohen Design Associates | June 2016 - July 2018

Designed and developed graphics across media. Met with clients to discuss projects. Functioned as in-house web developer, developing sites by hand-coding and CMS. Redesigned and developed agency's website.
